

Report on Intellectual property and Medicine

Date: 09/09/2023

Time: 11:00 AM to 01:00 PM

Location: Academic Council Hall

Participants: 55

Event Overview:

An online seminar on "Intellectual Property and Medicine" was conducted to explore the intricate relationship between intellectual property (IP) and the field of medicine. The objective was to provide participants with a comprehensive understanding of the role of IP in healthcare, its impact on innovation, accessibility, and ethical considerations.

Agenda:

Welcome Address: The session commenced with a warm welcome to all participants and the guest speaker, Mrs. Shalaka Tolye, who is an expert in the field of intellectual property and its applications in medicine.

Introduction of the Guest Speaker: Dr. Chandrika Dodhihal, the coordinator of the program, introduced Mrs. Shalaka Tolye, highlighting their extensive expertise and experience in the intersection of intellectual property and medicine.

Lecture on Intellectual Property and Medicine: The guest speaker delivered an insightful lecture on the topic, covering various aspects such as the role of IP in medical innovation, challenges related to access and ethics, and strategies for achieving a balance between IP protection and public interest. The lecture spanned from 11:00 AM to 01:00 PM.

Interactive Discussion: Following the lecture, participants engaged in an interactive discussion, where they had the opportunity to ask questions and seek clarifications from the guest speaker. This session encouraged the exchange of ideas and perspectives.

Q&A Session: A dedicated question-and-answer session allowed participants to delve deeper into specific topics and gain further insights from the guest speaker's expertise.

Conclusion and Key Takeaways: The session concluded with a summary of key takeaways, emphasizing the importance of finding a balance between protecting innovation and ensuring equitable access to healthcare.

Vote of Thanks: Dr. Ishwar Bagoji, a member of the organizing committee, expressed gratitude to the guest speaker, participants, and all individuals involved in making the seminar a success.

Report on Intellectual property and Medicine

The seminar on "Intellectual Property and Medicine" provided a valuable platform for participants to enhance their understanding of the intricate relationship between IP and healthcare. It encouraged critical thinking, fostered discussion, and raised awareness about the challenges and ethical considerations associated with intellectual property in the medical field. The session concluded on a positive note, leaving participants better informed and equipped to navigate the complex landscape of IP in medicine.
