Additional Experience

I had been overall incharge of the clinical biochemistry laboratory all these years, and about 15 technicians and few attenders were working under me. Hence an administration in the running of laboratory is an extra responsibility I beared. I took responsibility to introduce new investigations in the laboratory as and when it was required. I am a qualified internal auditor as per Internal audit and quality management systems ISO 15189-2007 AND NABL

112 requirement. Also I involve myself to give my opinions to my higher authorities as the expert, while they choose to purchase the new instruments to our clinical laboratory. The P.G. Students of other departments take dissertation work related to Biochemistry subject. I involve myself in standardization of their respective methods, reporting and monitoring of the results. The staff members of other departments take up the project work based on topic related to our subject. I actively participate either as the co investigator or as the supportive investigator.

* Research and Development:

- Ph.D degree procured from the BLDE University, Vijayapur in 2015. The thesis topic was ‘A study on occupational risk factors in the manifestation of Cardiometabolic syndrome in and around Bijapur’.

* Research Grants:

- A Project Work Undertaken and completed By me as a Principal Investigator with the Title as ‘Biochemical studies on prevalence of metabolic syndrome’. The project was Approved and Rs 77000 was granted to me by BLDEA University in the year 2010. The

report has been accepted by the University.

- A ICMR Student Research Project with the title “ADA levels in type 2 diabetes” was guided and reported by me in the year 2013. The report was accepted by ICMR.

*Current running projects ‘Student research project works’, under my guideline.

1. Study on association between hyperuricemia and dyslipidemia in evaluating the risk of CVD in hypertensive patients.
2. Study on association between serum Prolactin and Thyroid profile (T3,T4,FT3,FT4,TSH) in patients with subclinical and overt Hypothyroidism.

* ICMR Project applied for the fund.[2019-2020]

1. Study on association between serum Leptin, serum C-Peptide and β -Cell dysfunction in

Lean Individuals With Type 2 Diabetes mellitus (DM).

* Technical Publications:

Technical Papers published in Journals:
